-FES Scholarship (Micael McGovern): Choices for our scholarship:

Option 1) Farmdale is encouraging our students to "Be the ONE." Be the ONE, emphasizes the importance of following Farmdale's four expectations: Be safe, responsible, respectful, and engaged. Although this initiative was not being formally promoted while you were at Farmdale, these expectations have always embodied Farmdale's students. As you look back on your Farmdale experience, in 300-500 words, explain what part of "Be the ONE" influenced you. What part of "Be the ONE" do you hope to represent in your collegiate studies? Why?

Option 2) According to the Pew Research Center's nationally representative American Trends Panel, this year's election has shown that there is an increasing share (28%) of Americans who have a negative opinion of both parties. A little more than a year before the presidential election, nearly two-thirds of Americans (65%) say they always or often feel exhausted when thinking about politics, while 55% feel angry. By contrast, just 10% say they always or often feel hopeful about politics, and even fewer (4%) are excited. With these national statistics in mind how will you, as a graduating senior, navigate these polarizing political times? Using 300-500 words, what constructive tools can you offer our Farmdale students when being confronted by someone who does not share your views and opinions?

-Option 1 was chosen by the most votes. 8 to 4.
