Preschool Program

In the preschool program, we strive to help each child attain a positive self concept. Socialization, sharing, and the value of friendship are also stressed. Throughout the semester, high school students work with the preschool children in a student-teacher capacity. Each week has a designated theme in which the high school students are responsible for creating a lesson and planning activities, games, and songs to carry out the learning experience. Guests and other appropriate activities are often included to enhance the learning experiences for children.

If you have questions or would like more information, please contact Lauren Stauffer, Family and Consumer Sciences Department Chairperson by phone 898-5553 or e-mail lauren_stauffer@hempfieldsd.org
