Does Your Child Have Exceptional (Special and/or Gifted) Learning Needs?

Are You Worried About How Your Child is Doing in School?

Hempfield Partners for Exceptional Children has been created for you. **HPEC** is a partnership between parents and district staff, working together to improve parent-school communication and understanding of student needs and educational services. HPEC is where you can network with parents and staff to share your concerns about your child's performance in school, to share strategies that have worked for you, or to gain new strategies.
